

## DESIGN & CONSTRUCTION SUMMARY

The following section includes various documents to help complete a Storm water Pollution Prevention Plan (SWPPP).

1. **SWPPP Completion Guide:** This document contains helpful tips and examples of what information needs to be provided in the SWPPP. A log for the Contractor/Developer to sign stating they have received the storm water packet is also included here. The SWPPP Template can be downloaded in a Microsoft Word format from the following website:  
[http://www.waterquality.utah.gov/UPDES/Const\\_SW\\_swppp\\_template.doc](http://www.waterquality.utah.gov/UPDES/Const_SW_swppp_template.doc)  
A SWPPP Guide produced by the EPA is available online. It may be downloaded from the following website.  
[www.epa.gov/npdes/swpppguide](http://www.epa.gov/npdes/swpppguide)
2. **Common Plan of Development Storm Water Pollution Prevention Plan:** This is a “mini SWPPP” to be completed by the homeowner. This is applicable when a contractor/developer sells a lot to an individual and elects to then transfer the responsibility for maintaining the storm water to the owner.
3. **Best Management Practices (BMPs):** These are the BMPs the city has adopted for construction and post construction.
4. **Low Impact Development (LID):** These are building techniques that the developer is required to consider.
5. **Storm Drainage Design Standards** are included as well as some standard details of some storm water control techniques.
6. The **Maintenance Agreement** is to be completed and signed by the Developer/Contractor.
7. The **Notice of Intent (NOI)** must be completed by the Developer/Contractor to apply for coverage under the Utah Pollutant Discharge Elimination System (UPDES) permit.
8. The **SWPPP Preconstruction Review SOP** is to be completed by the city while reviewing the Developer/Contractors plans.

9. The ***UPDES Storm Water Inspection Evaluation Form for SWPPP Compliance*** is to be completed by the city or designated inspector of the construction site.
10. The ***SWPPP Compliance Inspection Form*** is to be completed by the city or designated inspector of the construction site.
11. The ***Notice of Termination (NOT)*** is to be completed by the Developer/Contractor upon completion of construction, and stabilization of the site.
12. The ***Preconstruction Meeting Storm Water Agenda*** is a checklist of the items that need to be addressed in the preconstruction meeting with the Developer/Contractor.
